ISEE PREPARATION CLASSES

The Clinic for Academic Therapy is pleased to be offering classes to prepare students for the Independent School Entrance Examination (ISEE). This year there will be a number of options from which to choose. Parents may choose for their children the traditional eleven-week class or they may now choose a seven-week class. Both of these choices offer the same comprehensive preparation as has come to be expected.

All sections will prepare students for the January test dates here in Houston¹, although the second Friday class will best serve those taking the test later in January.

Please view the chart below for the options available. Current options are only available for the upper level test, but a lower level section will be considered if there is interest.
